

VPC – 10.0.0.0/23 с двумя подсетями в разных AZ:

- 10.0.0.0/24 (eu-west-1a)
- 10.0.1.0/24 (eu-west-1b)

The screenshot shows the AWS Management Console interface for VPC Subnets. The left sidebar contains navigation links for VPC Dashboard, EC2 Global View, and various VPC resources. The main content area displays a list of subnets for a VPC named 'project'. The selected subnet, 'project1-subnet-public2-eu-west-1b', is highlighted, and its details are shown below the list.

Name	Subnet ID	State	VPC	IPv4 CIDR
project1-subnet-public2-eu-west-1b	subnet-04f750e7796d63d08	Available	vpc-0a8ca3893cf31b465 proj...	10.0.1.0/24
project1-subnet-public1-eu-west-1a	subnet-04f9e69774d5fe9a6	Available	vpc-0a8ca3893cf31b465 proj...	10.0.0.0/24

subnet-04f750e7796d63d08 / project1-subnet-public2-eu-west-1b

Details

Subnet ID	Subnet ARN	State	IPv4 CIDR
subnet-04f750e7796d63d08	arn:aws:ec2:eu-	Available	10.0.1.0/24

SGs:

EC2-SG – открыты порты SSH и HTTP со всех адресов;

EFS-SG – открыт порт 2049 TCP только для сети VPC (10.0.0.0/23);

RDS-SG – открыт порт 3306 TCP только для сети VPC (10.0.0.0/23);

The screenshot shows the AWS Management Console for the eu-west-1 region, specifically the VPC Management Console. The main content area displays a list of Security Groups (5 total). The table below summarizes the visible security groups:

	Name	Security group ID	Security group na...	VPC ID	Description	Owner	Inbound
<input type="checkbox"/>	EC2-SG	sg-00044e4e7180d18f3	EC2-SG	vpc-0a8ca3893cf31b465	Allow HTTP SSH	182619740765	2 Permis
<input type="checkbox"/>	VPC-SG	sg-0071809872920b70e	default	vpc-0a8ca3893cf31b465	default VPC security ...	182619740765	1 Permis
<input type="checkbox"/>	EFS-SG	sg-09e07abf9f1bb162d	EFS-SG	vpc-0a8ca3893cf31b465	Allow 2049 TCP	182619740765	1 Permis
<input type="checkbox"/>	RDS-SG	sg-0a8ad0a680d254d24	RDS-SG	vpc-0a8ca3893cf31b465	Allow 3306 TCP	182619740765	1 Permis

The left sidebar contains navigation links for various AWS services, including Route Tables, Internet Gateways, Egress Only Internet Gateways, DHCP Options Sets, Elastic IPs, Managed Prefix Lists, Endpoints, Endpoint Services, NAT Gateways, and Peering Connections. The SECURITY section is expanded, showing Network ACLs and Security Groups (highlighted in orange). The NETWORK ANALYSIS section includes Reachability Analyzer and Network Access Analyzer. The bottom of the console shows a footer with Feedback, English (US) language selection, and copyright information for Amazon Web Services, Inc. or its affiliates.

Создание EFS:

Важно: выбрать VPC, назначить SG для AZ, проверить состояние Mount targets.

The screenshot displays the AWS Management Console interface for creating an Amazon EFS file system. The browser tabs at the top include 'AWS Management Console', 'Dashboard | EC2 Manager', 'VPC Management Console', 'Amazon EFS', 'S3 Management Console', and 'RDS Management Console'. The address bar shows the URL: `https://eu-west-1.console.aws.amazon.com/efs/home?region=eu-west-1#/file-systems/create?name=&vpc=vpc-0beb44f7a4b8645f78`.

The console header features the AWS logo, a 'Services' menu, a search bar with the placeholder text 'Search for services, features, blogs, docs, and more', and navigation icons for help, notifications, and the user profile (AlexeyOSavchenko).

The left sidebar shows the navigation steps for the 'Network access' section:

- Step 2: **Network access**
- Step 3 - optional: File system policy
- Step 4: Review and create

The main content area is titled 'Network' and contains the following sections:

- Virtual Private Cloud (VPC)**: A dropdown menu showing 'vpc-0a8ca3893cf31b465' (project1-vpc).
- Mount targets**: A section explaining that a mount target provides an NFSv4 endpoint and recommending one per Availability Zone. A 'Learn more' link is provided.
- Mount targets table**: A table with columns for Availability zone, Subnet ID, IP address, Security groups, and a Remove button.

Availability zone	Subnet ID	IP address	Security groups	
eu-west-1a	subnet-04f9e6...	Automatic	Choose security ...	Remove
			sg-09e07abf9f1bb162d EFS-SG	
eu-west-1b	subnet-04f750...	Automatic	Choose security ...	Remove
			sg-00044e4e7180d18f3 EC2-SG	

The footer of the console includes a 'Feedback' link, the language 'English (US)', and copyright information: '© 2022, Amazon Web Services, Inc. or its affiliates. Privacy Terms Cookie preferences'.

Private S3 bucket – хранится wp-config.php для распространения на EC2 инстансы.

The screenshot displays the AWS Management Console interface for an Amazon S3 bucket named 'wordpress-top-secret-bucket'. The console is open in a web browser, showing the 'Objects' tab. The bucket contains one object, 'wp-config.php', which is a PHP file, 4.4 KB in size, and stored in the 'Standard' storage class. The console interface includes a sidebar with navigation options like Buckets, Access Points, and Storage Lens, and a top navigation bar with various AWS services and a search bar.

Amazon S3 **wordpress-top-secret-bucket** Info

Objects Properties Permissions Metrics Management Access Points

Objects (1)

Objects are the fundamental entities stored in Amazon S3. You can use [Amazon S3 inventory](#) to get a list of all objects in your bucket. For others to access your objects, you'll need to explicitly grant them permissions. [Learn more](#)

IAM роль с доступом только на чтение для EC2.

The screenshot displays the AWS IAM console interface in a web browser. The browser's address bar shows the URL: `https://us-east-1.console.aws.amazon.com/iamv2/home?region=eu-west-1#/roles/details/ReadS3?section=permissions`. The page title is "ReadS3", and the breadcrumb navigation indicates the path: IAM > Roles > ReadS3. The role's description states: "Allows EC2 instances to call AWS services on your behalf." The "Summary" section provides key details: Creation date (March 07, 2022, 13:30 UTC+05:00), ARN (`arn:aws:iam::182619740765:role/ReadS3`), Instance profile ARN (`arn:aws:iam::182619740765:instance-profile/ReadS3`), Last activity (17 hours ago), and Maximum session duration (1 hour). The "Permissions" tab is selected, showing "Permissions policies (1)". A table lists the attached policy: "AmazonS3ReadOnlyAccess" (AWS managed), which provides read-only access to all buckets via the AWS Management Console. The footer of the page includes the copyright notice: "© 2022, Amazon Web Services, Inc. or its affiliates." and links for Privacy, Terms, and Cookie preferences.

Input is already base64 encoded

IP address type Info

Only assign a public IP address to instances launched in a subnet with auto-assign public IP enabled (default)

Assign a public IP address to every instance.

Do not assign a public IP address to any instances.

Note: this option only affects instances launched into an Amazon VPC

Later, if you want to use a different launch configuration, you can create a new one and apply it to any Auto Scaling group. Existing launch configurations
